

JULY IS Dry Eye Disease Awareness Month

Dry eye disease is one of the most common eye problems affecting the general population today. In fact, more than 40 million people in the United States suffer from the sometimes debilitating problem. Additionally, less than 5% of the dry eye disease patient population has been properly diagnosed and treated, according to HealthCare Maintenance Organizations data. Speak to our staff about how you can prevent and/or treat Dry Eye Disease!

Guess offers a sparkling and glamorous eyewear collection, that completes the look of those who want to live thoroughly the Guess spirit, with the distinctive themes of the brand, one of the most important in the international fashion scene.
