

Our new office at 5016 Bridgeport Way W (South of Cirque W, across from Cirque Bridgeport Park), University Place, WA 98464

We'll be **moving**
Spring 2021
and becoming...

Noble
Eyes & Vision Center

Trusted eyecare solutions
that enhance your life

The expanded services at our new location will include a dramatic increase in dry eye services. We've started to point the direction of the business toward a medical model with this being one of the leading changes we're making. Other services will include Lipiflow®, Intense Pulse Light (IPL) for dry eye, and Blephex® therapies to name just a few. We will have a finish lab on-site so certain prescriptions will be able to be made in house. And we'll have twice as many exam rooms, 2 special testing rooms, and an ADA room that we never had before. The retail area will also be about 4 times the current size also with an even wider selection of frames. Of course we'll still work with diabetic, macular degeneration, and glaucoma patients. And we'll be expanding into specialty contact lenses as well. Finally, with our larger space, social distancing and managing CDC protocols will make it even easier to keep our employees and patients safe from COVID.

Comprehensive eye care you need

- State-of-the-art eye health exam • The latest designer frames
- Dry eye disease treatment • Myopia Control • Hard-to-fit contacts
- Digital Eyestrain • Treatment of eye disease & injury

For your comfort and convenience

- New patients welcome • Flexible appointment times
- Major credit cards and Insurance accepted • Se Habla Español
