

# Contact Lens Guarantee Program

## Contact Lens Fitting and Evaluation

Contact lenses are medical devices, regulated by the FDA. This means that the doctor has to evaluate or re-evaluate the fit of your contacts every year in order to determine the correct prescription for your eyes.

## Contact Lens Fitting and Evaluation Fees

ALL contact lens patients will be charged a contact lens fitting and evaluation fee.

Insurance companies require that we bill on contact lens fitting/evaluation separately from your comprehensive eye examinations. Insurance companies consider contact lenses 'not necessary'. Therefore they will not cover these charges.

The Insurance Commission requires that all patients are charged equally. Therefore, even if you do not have insurance we must by law charge you a contact lens fitting/evaluation fee.

These fees include; initial evaluation, topography mapping of your cornea, contact lens related follow-up visits for 3 months, diagnostic contact lenses, contact lens starting kit and a **20% discount on sunglasses of your choice. (Excluding Maui Jim)**

The fees are determined by the difficulty of fit, the type of contacts you wear, and the number of return visits required to complete the procedure. *Fees range from \$52.94 (VSP 15% discount \$ 45.00) for single vision spherical lenses to \$500.00 (VSP 15% discount \$ 425.00) for medically necessary custom lenses.*

In addition, patients that have never worn contact lenses must receive contact lens training. The training includes: instructing the patient to insert and remove contact lenses, care for the contacts, wearing instructions and counseling on health related issues for contact lens wearers. This fee is \$50.00.

## Our Guarantee

The health of your eyes and your satisfaction are very important to us. Therefore, if we are unable to fit you with contacts we will apply your contact lens fitting/evaluation to the purchase of glasses in our optical department.

For our patients that purchase contacts from us you may return one box, per eye, of open contact lenses and all factory sealed contact lens boxes within 30 days of purchase for credit towards the purchase of glasses in our optical department.

When you purchase contact lenses from us, we will be glad to exchange any defective lenses and supply you with an emergency pair if needed.
