

## INFORMED CONSENT

WiQo PRX-T<sub>33</sub><sup>®</sup> TCA/H<sub>2</sub>O<sub>2</sub>/KOJIC PERFECT INTENSE LIQUID from GPQ srl

### PLEASE READ ALL OF THE FOLLOWING CAREFULLY AND SIGN, WHERE INDICATED

As the patient receiving this treatment, you must ensure that all the points below have been discussed with your specialist. You are signing to state you understand and accept the terms of your treatment. It is important that you clearly mark any areas of this form that you wish to have clarified or discussed further. It is ultimately **YOUR** responsibility to ensure that you understand, in full, the PRX-T<sub>33</sub><sup>®</sup> TCA/H<sub>2</sub>O<sub>2</sub>/KOJIC PERFECT INTENSE LIQUID treatment application and the expected outcomes **BEFORE** your treatment commences.

#### TERMS OF YOUR TREATMENT:

- PRX-T<sub>33</sub><sup>®</sup> TCA/H<sub>2</sub>O<sub>2</sub>/KOJIC PERFECT INTENSE LIQUID is an elective cosmetic procedure that is not medically necessary
  - Results are cumulative and multiple treatments may be needed for optimal effect

#### **I am currently:**

- Pregnant or breast-feeding Yes / No
- Using isotretinoin or topical retinoids Yes / No

#### **IN THE DAYS FOLLOWING THE PRX-T<sub>33</sub><sup>®</sup> TCA/H<sub>2</sub>O<sub>2</sub>/KOJIC PERFECT INTENSE LIQUID TREATMENT APPLICATION, THE FOLLOWING REACTIONS MAY ARISE:**

- Widespread or patchy redness
- Late exfoliation
- Darker round spots for the next few days

#### **CONTRAINDICATIONS INCLUDE:**

- History of skin cancer
- Use of steroids
- Lupus and other autoimmune disease
- Recent facial surgical / laser treatments
- Irritated and/or irritable skin
- Seborrheic dermatitis
- Allergy to kojic acid
- Allergy to latex (only nitrile gloves should be used to administer the treatment)
- Pregnancy & breastfeeding
- Cutaneous and/or herpetic eruptions

#### **POTENTIAL SIDE EFFECTS INCLUDE:**

- Conjunctivitis due to unintentional contact
- Itchiness alongside reddening, papules and 'micro' blisters, due to allergic reaction to kojic acid or latex gloves
- Delayed inflammation which will appear as redness and/or swelling in some of the areas of application
  - Skin abrasions caused by a too vigorous massage. If this is the case, scarring and hyperpigmentation may appear
  - In case of a prolonged inflammation, there is some risk of hyperpigmentation in the treatment area

Today's date: \_\_\_\_\_

**I have read and understood all the above information. All my questions were answered to my satisfaction. I authorize Ocula Plastics, LLC to perform the PRX-T<sub>33</sub> TCA/ H<sub>2</sub>O<sub>2</sub>/KOJIC PERFECT INTENSE LIQUID application on me. I understand that multiple treatments may be needed and in rare cases no improvement may be seen.**
